Learning Arabic Language of the Quran

The message of the Qur'an is addressed to all creation, conveyed in the Arabic language. Allah Almighty says: 'We have sent it down as an Arabic Qur'an so that you may understand.' (12:2) Acquiring command over the Arabic language can be relatively easy for those who are native speakers, but can prove difficult for the non-speakers. The study of Arabic, therefore, cannot be taken lightly. The books that can impart knowledge of the Qur'anic Arabic are rare. The present book is specifically designed for learning the language of the Qur'an. All

examples used in the explanation of Arabic grammar have been taken straight from the Holy Qur'an. This approach aids the beginning -student to enter the world of the Qur'an, allowing simultaneous understanding of Arabic grammar and the Qur'an, which is a very special feature of this book.

Arabic-English Dictionary of Qur'anic Usage

The Qur'an is the living source of all Islamic teaching, and is of singular importance to those interested in Islam and the study of religions. Despite this, there exists a long-felt lack of research tools for English first-language speakers who wish to access the Qur'an in the original Arabic. The Dictionary of Qur'anic Usage is the first comprehensive,

fully-researched and contextualised Arabic-English dictionary of Qur'anic usage, compiled in accordance with modern lexicographical methods by scholars who have a lifelong immersion in Qur'anic Studies. Based on Classical Arabic dictionaries and Qur'an commentaries, this work also emphasises the role of context in determining the meaning-scatter of each vocabulary item. Illustrative examples from Qur'anic verses are provided in support of the definitions given for each context in which a particular word occurs, with cross-references to other usages. Frequently occurring grammatical particles are likewise thoroughly explained, insofar as they are used in conveying various nuances of meaning in the text.

Arabic-English Lexicon (Dictionary)

The most scholarly dictionary of the Arabic language available. This work is the product of over thirty years of unrelenting labour. It is a work of such unique greatness that, since its first appearance almost 150 years ago, it has remained to this day supreme in the field of Arabic lexicography. No scholar or group of scholars has produced anything to supplant it. As it originally appeared and was later reproduced, the Lexicon consisted of eight large, cumbersome volumes, which made it difficult to use. Now, for the first time, the Islamic Texts Society has, with no loss whatsoever of clarity or legibility, brought together the eight large volumes into two compact volumes; it is now possible to keep the Lexicon on the work desk and refer to it with ease.
